Introduction

At Department of Public Administration, we have the degree programs - Master programs established in December 17, 1965 and Ph.D programs established in December 5, 1979. The faculty of Department of Public Administration are leading theoretical and practical research in the public sector. Our degree programs combine depth of study with breadth of opportunity to specialize in public sector across each field.

The goal of Department of Public Administration is to research and lead improvement of the administrative management, deliberation for the public welfare, adaptation of the decentralized and democratic administration, and then response to the globalization and informationization. The focus of public administration study is on theoretical and practical research.
